G 130/150

		G 130	G 150
Grinding length	mm	1700 – 15000	
Grinding motor	kW	100 – 350	
Grinding head diameter	mm	1100	1300
Clearance height	mm	200 – 500	
width	mm	1050	1250
Grinding width	mm	1000	1200
Carriage speed	m/min	0.5 – 40	

Operator panel
for NC-control

Controldesk with screen CNC-multifunction keyboard integrated machine control board and electronic handwheel

Production grinding machine type G 130 d, grinding length 13 m, machine length 21 m, weight 85 t

Dual-side drive

Automatic roughing-finishing device, radial-cross grinding cycle

Intensive cooling with internal swiveling nozzle

Four-table version for two-stationary grinding, single and synchronous adjustment.

Station for changing and resetting the segments

Magnetic separator

Magnetic separator with cyclone

Magnetic separator with paper band filter

Grinding vapour extraction unit also for two-stationary grinding
